

**NEW FOR 2022!!**  
**A BRAND NEW STATE OF THE ART**  
**3-SIDED CLIMBING TOWER**

We would like to bid farewell and say goodbye to our beloved climbing wall as we build in its place a "BIGGER, BETTER & BRAND NEW STATE OF THE ART CLIMBING TOWER!" This newly constructed 3-sided, 28 foot high tower consists of 3-levels of difficulty for all levels of experience for the 2022 camp season and beyond. The overhang feature above provides the experienced climber with the highest level of difficulty. The other sides provide for an easier to more difficult climb to the top. The 3-sided walls consist of over 300 colorful holds of varying sizes and locations. This tower is a perfect compliment to our brand new "Continuous Belay Course" and "Ninja Course" that opened in 2021.
